Self-Healing, World Healing:
Introduction to Eldamar
Retreat

LOST ARTS RESEARCH INSTITUTE

- ◉ Quenya zR5ì#
- ◉ Eldamar
- ◉ topon. Elvenhome The home of the Elves within Valinor (S/59). This name is a compound of Elda “Elf” and már “home”. As noted by Tolkien, it must have been a late compound, otherwise the more primitive form *-mbar of the second element would have been preserved as ***Eldambar* (PE17/106).
Conceptual Development: This name dates back all the way to the earliest *Lost Tales*, where it had essentially the same form, meaning and etymology (LT1/19, LTA1/Eldamar).

- ◉ Brief Bio Notes on Essene Teacher, Richard Sacks
- ◉ Lost Arts Research Institute Founder and CEO Richard Sacks has been an independent holistic health scientist since 1965, and more recently has also been doing a small number of private consulting sessions while planning for the creation of Eldamar Retreat. Much of Richard's work in holistic health has focused on the reversal of degenerative disease and "aging," by natural means. On a deeper level, he is an Essene Teacher, explaining principles of natural health and consciousness. He says Nature is magic in real life, we have become blind but can learn to see again. He is also an internationally known radio host (www.lostartsradio.com).
